

About the practice

Information for English Speaking Patients

Thank you so much for taking interest in our practice for internal medicine and gastroenterology in Munich, Bavaria.

We offer high profile medicine by highly qualified experts. Our doctors were trained at Munich's leading communal and academic hospitals and have all the expertise you need in the field of gastroenterology and hepatology.

We offer the following services:

- Esophagogastroduodenoscopy
- Colonoscopy, also as regular check ups
- A combination of the two mentioned above including parts of small bowels
- "Gently" endoscopy by using carbon dioxide and propofol
- Virtual narrow band imaging
- Sigmoidoscopy
- Proctoscopy and rectoscopy including treatment of haemorrhoids
- Small intestine endoscopy (video capsule)
- Interventional endoscopy: diagnosis and treatment of e.g. gastrointestinal bleeding or removing big polyps for out-patients or in-patients (in our own ward at the Maria-Theresia-clinic, a hospital which is in the immediate neighborhood). This hospital also prepares in-patients for colonoscopy and other endoscopic treatment. For example there we can use also endoscopy combined with X-ray for diagnosis and therapy of gallstones.

We also offer:

- Ultrasound diagnosis
- Video consultations
- Special consultations for patients suffering from Crohn's disease or ulcerative colitis
- Breath tests to check for lactose- or fructose-intolerance
